3. New standards and interpretations

The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Set out below is the impact of the mandatory adoption of new standards:

IFRS 16, *Leases* ("IFRS 16")

Effective January 1, 2019, the Company has adopted IFRS 16 using the modified retrospective approach, requiring the cumulative effect of initial application to be recognized as an adjustment to the opening balance of retained deficit, and prior periods are not restated. IFRS 16 which requires lessees to recognize assets and liabilities for most leases, with exemptions available for leases with a term that is twelve months or less, or where the underlying asset is of a low value.

Unless exempted, as noted above, upon inception of a lease, lessees will be required to recognize a right-of use ("ROU") asset, representing the Company's right to use the underlying asset and a lease liability representing its obligation for lease payments due to the lessor. ROU assets and the corresponding liability are initially measured at the present value of non-cancellable payments, including those made in accordance with an option period when the Company expects to exercise an option period to extend or not terminate a lease.

Effective November 1, 2014, the Company entered into a sub-lease with Genesys Venture Inc. ("GVI") to lease office space at a rate of $170 per annum for three years ending October 31, 2017, with an 18-month renewal period available. The lease was amended on May 1, 2016 and increased the leased area covered under the lease agreement at a rate of $212 per annum until October 31, 2019 with an 18-month renewal period available. The leased area covered under the lease was again increased, effective November 1, 2018 at a rate of $306 per annum until the end of the term of the lease.

The impact of the adoption of IFRS 16 on the Company's statement of financial position at January 1, 2019 is as follows:

The Company has considered indicators of impairment as at March 31, 2019 and December 31, 2018. The Company did not record any write-down of intangible assets during the three months ended March 31, 2019 or 2018. As at March 31, 2019, intangible assets pertaining to AGGRASTAT® intangible were fully amortized.

For the three months ended March 31, 2019, amortization on the licenses totaling $183 (2018 – nil) is recorded within cost of goods sold.

8. Holdback receivable

The holdback receivable of US$10 million, originated on October 2, 2017 as a part of the sale of the Apicore business ("Apicore Sale Transaction"). The holdback receivable was initially recorded at its fair value of $11,941 and subsequently measured at FVTPL. This resulted in a carrying value as at March 31, 2019 of $11,666 (December 31, 2018 – $11,909). The other long-term liability, totaling $1,176 (December 31, 2018 - $1,201), is payable to the former President and Chief Executive Officer of Apicore upon receipt of the holdback receivable.

On February 13, 2019, the Company received notice from the buyer in the Apicore Sale Transaction of potential claims against the holdback receivable in respect of representations and warranties under the Apicore Sale Transaction, with the maximum exposure of the claims being the total holdback receivable. The notice did not contain sufficiently detailed information to enable the Company to assess the merits of the claims. The Company is proceeding diligently to investigate the potential claims and attempt to satisfactorily resolve them with a view to having the holdback receivable released.

In consideration of the uncertainty associated with the potential claims asserted by the buyer, the Company reduced the carrying value of the holdback receivable by $1,473 on the statement of financial position as at December 31, 2018. The buyer did not make the required payments on the holdback receivable in February and April 2019.

9. Investment in Sensible Medical

On January 24, 2019, the Company acquired a 9.36% equity interest (7.71% on a fully-diluted basis) in Sensible Medical Innovations Ltd. ("Sensible"), and concurrently entered into an exclusive marketing and distribution agreement with Sensible to Market ReDS in the United States. The Company acquired the rights for US$10,000 (CDN$13,351) plus US$68 (CDN$91) in directly attributable costs.

On completion of the transaction, the Company recorded the initial fair value assigned to the investment in Sensible Medical at $6,337 with the remainder attributed to the rights associated with the distribution agreement accounted for within intangible assets and ReDS demonstration units which are recorded within property and equipment, $7,038 was recorded within intangible assets relating to the license acquired through the exclusive marketing and distribution agreement and $67 was recorded within property and equipment pertaining to ReDS demonstration devices acquired as part of the agreement.

The Company has made an irrevocable election at initial recognition to recognize changes in the fair value of the investment in Sensible Medial through other comprehensive income (loss), as this is a strategic investment, and the Company considers this classification to be more relevant. As noted above, the initial fair value assigned to the investment upon initial recognition was $6,337. During the three months ended March 31, 2019, the Company recorded other comprehensive income of $117 associated with the change in fair value of the investment in Sensible Medical. This resulted in a carrying value as at March 31, 2019 of $6,459.

The license is being amortized over the term of the license agreement which is equal to ten years and $117 of amortization was recorded within cost of goods sold pertaining to amortization of this license.

(expressed in thousands of Canadian dollars, except per share amounts)

10. Royalty obligation

On July 18, 2011, the Company settled its then existing long-term debt with Birmingham Associates Ltd. ("Birmingham"), an affiliate of Elliott Associates L.P., in exchange for i) $4,750 in cash; ii) 2,176,003 common shares of the Company; and iii) a royalty on future AGGRASTAT® sales until May 1, 2023. The royalty is based on 4% of the first $2,000 of quarterly AGGRASTAT® sales, 6% on the portion of quarterly sales between $2,000 and $4,000 and 8% on the portion of quarterly sales exceeding $4,000 payable within 60 days of the end of the preceding three-month periods ended February 28, May 31, August 31 and November 30. Birmingham has a one-time option to switch the royalty payment from AGGRASTAT® to a royalty on the sale of MC-1. Management determined there is no value to the option to switch the royalty to MC-1 as the product is not commercially available for sale and the extended long-term development timelines associated with commercialization of the product.

In accordance with the terms of the agreement, if the Company were to dispose of its AGGRASTAT® rights, the acquirer would be required to assume the obligations under the royalty agreement.

The royalty obligation was recorded at its fair value at the date at which the liability was incurred, estimated to be $902, and subsequently measured at amortized cost using the effective interest rate method at each reporting date. This resulted in a carrying value as at March 31, 2019 of $3,259 (December 31, 2018 – $3,531) of which $1,373 (December 31, 2018 – $1,496) represents the current portion of the royalty obligation. The net change in the royalty obligation for the three months ended March 31, 2019 of $99 (2018 – $224) is recorded within finance (income) expense, net on the condensed consolidated interim statements of net income and comprehensive income. Royalties for the three months ended March 31, 2019 totaled $233 (2018 – $333) with payments made during the three months ended March 31, 2019 of $462 (2018 – $392).

The compensation expense was determined based on the fair value of the options at the date of measurement using the Black-Scholes option pricing model. The expected life of stock options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

Subsequent to March 31, 2019, 5,501 stock options were exercised, 2,001 at an exercise price of $0.60 per common share and 3,500 at an exercise price of $3.90 per common share. Additionally, subsequent to March 31, 2019, 3,333 stock options with an exercise price of $0.60 expired without exercise.

The Company has entered into a manufacturing and supply agreement to purchase a minimum quantity of AGGRASTAT® unfinished product inventory totaling U.S.$150 annually (based on current pricing) until 2024 and a minimum quantity of AGGRASTAT® finished product inventory totaling U.S.$199 annually (based on current pricing) until 2022 and between €400 and €525 annually (based on current pricing) until 2022.

Effective January 1, 2019, the Company renewed its business and administration services agreement with GVI under which the Company is committed to pay $7 per month or $85 per year for a one-year term.

Contracts with contract research organizations are payable over the terms of the associated agreements and clinical trials and timing of payments is largely dependent on various milestones being met, such as the number of patients recruited, number of monitoring visits conducted, the completion of certain data management activities, trial completion, and other trial related activities.

On October 31, 2017, the Company acquired an exclusive license to sell and market PREXXARTAN® (valsartan) oral solution in the United States and its territories with a seven-year term, with extensions to the term available, which has been granted tentative approval by the U.S. Food and Drug Administration ("FDA"), and which was converted to final approval during 2017. The Company acquired the exclusive license rights for an upfront payment of U.S.$100, with an additional U.S.$400 payable on final FDA approval and will be obligated to pay royalties and milestone payments from the net revenues of PREXXARTAN®. The U.S.$400 payment is on hold pending resolution of the dispute between the licensor and the third-party manufacturer of PREXXARTAN® described in note 12(d) and is recorded within accounts payable and accrued liabilities on the consolidated statements of financial position.

On December 14, 2017 the Company acquired an exclusive license to sell and market a branded cardiovascular drug, ZYPITAMAG™ (pitavastatin magnesium) in the United States and its territories for a term of seven years with extensions to the term available. The Company has entered into a profit-sharing arrangement resulting in a portion of the net profits from ZYPITAMAG™ being paid to the licensor. To date, no amounts are due and/or payable pertaining to profit sharing on this product.

12. Commitments and contingencies (continued)

(b) Guarantees

The Company periodically enters into research agreements with third parties that include indemnification provisions customary in the industry. These guarantees generally require the Company to compensate the other party for certain damages and costs incurred as a result of claims arising from research and development activities undertaken on behalf of the Company. In some cases, the maximum potential amount of future payments that could be required under these indemnification provisions could be unlimited. These indemnification provisions generally survive termination of the underlying agreement. The nature of the indemnification obligations prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay. Historically, the Company has not made any indemnification payments under such agreements and no amount has been accrued in the condensed consolidated interim financial statements with respect to these indemnification obligations.

(c) Royalties

As a part of the Birmingham debt settlement described in note 10, beginning on July 18, 2011, the Company is obligated to pay a royalty to Birmingham based on future commercial AGGRASTAT® sales until 2023. The royalty is based on 4% of the first $2,000 of quarterly AGGRASTAT® sales, 6% on the portion of quarterly sales between $2,000 and $4,000 and 8% on the portion of quarterly sales exceeding $4,000 payable within 60 days of the end of the preceding three-month periods ended February 28, May 31, August 31 and November 30. Birmingham has a one-time option to switch the royalty payment from AGGRASTAT® to a royalty on the sale of MC-1. Management has determined there is no value to the option to switch the royalty to MC-1 as the product is not commercially available for sale and the extended long-term development timeline associated with commercialization of the product. Royalties for the three months ended March 31, 2019 totaled $233 (2018 – $333) with payments made during the three months ended March 31, 2019 of $462 (2018 – $392).

The Company is obligated to pay royalties on any future commercial net sales of PREXXARTAN® to the licensor of PREXXARTAN®. To date, no royalties are due and/or payable.

(d) Contingencies

In the normal course of business, the Company may from time to time be subject to various claims or possible claims. Although management currently believes there are no claims or possible claims that if resolved would either individually or collectively result in a material adverse impact on the Company's financial position, results of operations, or cash flows, these matters are inherently uncertain and management's view of these matters may change in the future.

During 2018, the Company was named in a civil claim in Florida from the third-party manufacturer of PREXXARTAN® against the licensor. The claim disputed the rights granted by the licensor to the Company with respect to PREXXARTAN®. The claim against the Company has since been withdrawn, however the dispute between the licensor and the third-party manufacturer continues.

On September 10, 2015, the Company submitted a supplemental New Drug Application ("sNDA") to the FDA to expand the label for AGGRASTAT®. The label change is being reviewed and evaluated based substantially on data from published studies. If the label change submission were to be successful, the Company will be obligated to pay €300 over the course of a three-year period in equal quarterly instalments following approval. On July 7, 2016, the Company announced it received a Complete Response Letter stating the sNDA cannot be approved in its present form and requested additional information. The payments are contingent upon the success of the filing and as such the Company has not recorded any amount in the condensed consolidated interim statements of net income (loss) and comprehensive income (loss) pertaining to this contingent liability.

During 2015, the Company began a development project of a cardiovascular generic drug in collaboration with Apicore. The Company has entered into a supply and development agreement under which the Company holds all commercial rights to the drug. In connection with this project, the Company is obligated to pay Apicore 50% of net profit from the sale of this drug. On August 13, 2018, the Company announced that the FDA has approved its aNDA for SNP, a generic intravenous cardiovascular product and the Company intends to launch the product commercially in 2019. To date, no amounts are due and/or payable pertaining to profit sharing on this product.
