Notes to the Condensed Consolidated Interim Financial Statements (expressed in Canadian dollars) Unaudited

1. Reporting entity:

Medicure Inc. (the "Company") is a company domiciled and incorporated in Canada and as of October 24, 2011, its Common Shares are listed on the TSX Venture Exchange. Prior to October 24, 2011 and beginning on March 29, 2010, the Company's Common Shares were listed on the NEX board of the TSX Venture Exchange. Prior to March 29, 2010, the Company's Common Shares were listed on the Toronto Stock Exchange. Additionally, the Company's shares were listed on the Toronto Stock Exchange. Additionally, the Company's shares were listed on the American Stock Exchange (later called NYSE Amex and now called NYSE MKT) on February 17, 2004 and the shares ceased trading on the NYSE Amex effective July 3, 2008. The Company remains a U.S. Securities and Exchange Commission registrant. The address of the Company's registered office is 2-1250 Waverley Street, Winnipeg, Manitoba, Canada. The Company is a biopharmaceutical company engaged in the research, development and commercialization of human therapeutics. Through its subsidiary Medicure International, Inc., the Company has rights to the commercial product AGGRASTAT® Injection (tirofiban hydrochloride) in the United States and its territories (Puerto Rico, U.S. Virgin Islands, and Guam). AGGRASTAT®, a glycoprotein GP IIb/IIIa receptor antagonist, is used for the treatment of acute coronary syndrome including unstable angina, which is characterized by chest pain when one is at rest, and non-Q-wave myocardial infarction. The Company's primary ongoing research and development activity is the development and implementation of a new regulatory, brand and life cycle management strategy for AGGRASTAT®.

2. Basis of preparation of financial statements:

(a) Statement of compliance

These condensed consolidated interim financial statements of the Company and its subsidiaries were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* and have been prepared using the same accounting policies and methods of application as those used in the Company's audited consolidated financial statements for the seven months ended December 31, 2014. The condensed consolidated interim financial statements do not include all of the information required for full annual consolidated financial statements and should be read in conjunction with he Company's audited consolidated financial statements for the seven months ended December 31, 2014.

The condensed consolidated interim financial statements were authorized for issue by the Board of Directors on April 29, 2015.

(b) Basis of presentation

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for the following items:

- Derivative financial instruments are measured at fair value.
- Financial instruments at fair value through profit and loss are measured at fair value.

In December 2014, the Company received approval from securities regulators to change its financial year end from May 31 to December 31. The change of year end enabled the Company to align its year end with industry peers and with most other companies trading on the TSX Venture Exchange. The change in year end results in the current period reflecting results for the three months ended March 31, 2015, while the comparative period is for the three months ended February 28, 2014.

Notes to the Condensed Consolidated Interim Financial Statements (expressed in Canadian dollars) Unaudited

2. Basis of preparation of financial statements (continued):

(c) Going concern

These condensed consolidated interim financial statements have been prepared on a going concern basis in accordance with IFRS. The going concern basis of presentation assumes that the Company will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. There is substantial doubt about the appropriateness of the use of the going concern assumption because the Company has accumulated a deficit of \$126,515,705 as at March 31, 2015 and had experienced operating losses since incorporation prior to the seven months ended December 31, 2014. The Company's future operations are dependent upon its ability to maintain growth in sales of AGGRASTAT®, to develop and/or acquire new products, and/or secure additional capital, which may not be available under favourable terms or at all, and/or renegotiate the terms of its contractual commitments. If the Company is unable to maintain growth in sales, develop and/or acquire new products, raise additional capital or renegotiate the terms of its contractual commitments, management intends to consider other strategies including further cost curtailments, delays of research and development activities, asset divestures and/or monetization of certain intangible assets. Effective August 1, 2013, the Company renegotiated its long-term debt and received an additional two-year deferral of principal repayments. Under the renegotiated terms, the loan continues to be interest only with principal repayments now beginning on August 1, 2015 and the loan maturing on July 1, 2018.

The ability of the Company to continue as a going concern and to realize the carrying value of its assets and discharge its liabilities when due is dependent on many factors, including, but not limited to, the actions taken or planned, some of which are described above, which are intended to mitigate the adverse conditions and events that raise doubt about the validity of the going concern assumption used in preparing these condensed consolidated interim financial statements. There is no certainty that the Company's working capital and net cash flows will be sufficient through fiscal 2015 or that the above described and other strategies will be sufficient to permit the Company to continue as a going concern.

The condensed consolidated interim financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis was not appropriate for these condensed consolidated interim financial statements, then adjustments would be necessary to the carrying value of assets and liabilities, the reported revenue and expenses, and the consolidated statement of financial position classifications used.

(d) Functional and presentation currency

The condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company's functional currency. All financial information presented has been rounded to the nearest dollar except where indicated otherwise.

(e) Use of estimates and judgments

The preparation of these condensed consolidated interim financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Areas where management has made critical judgments in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements include the determination of the Company and its subsidiaries functional currency and the determination of the Company's cash generating units ("CGU") for the purposes of impairment testing.

Information about key assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year are included in the following notes to the consolidated financial statements for the seven months ended December 31, 2014:

2. Basis of preparation of financial statements (continued):

(e) Use of estimates and judgments (continued):

- Note 3(c)(ii): Valuation of the royalty obligation
- Note 3(c)(ii): Valuation of the warrant liability
- Note 3(c)(ii): Valuation of the other long-term liability
- Note 3(d): Provisions for returns, chargebacks and discounts

3. New standards and interpretations not yet adopted:

Certain new standards, interpretations and amendments to existing standards issued by the IASB or the IFRIC that are not yet effective up to the date of issuance of the Company's financial statements are listed below. The Company is assessing the impact of these pronouncements on its consolidated results and financial position. The Company intends to adopt those standards when they become effective.

IFRS 9 Financial Instruments: Classification and Measurement

IFRS 9 replaces the guidance in IAS 39 *Financial Instruments: Recognition and Measurement*, on the classification and measurement of financial assets. The Standard eliminates the existing IAS 39 categories of held to maturity, available-for-sale and loans and receivables.

Financial assets will be classified into one of two categories on initial recognition:

- financial assets measured at amortized cost; or
- financial assets measured at fair value.

Under IFRS 9, for financial liabilities measured at fair value under the fair value option, changes in fair value attributable to changes in credit risk will be recognized in other comprehensive (loss) income, with the remainder of the change recognized in profit and loss. IFRS 9 is effective for annual periods beginning on or after January 1, 2018 and is to be applied retrospectively with some exemptions. The Company is currently evaluating the impact of the above standard on its financial statements.

IFRS 15, Revenues from Contracts with Customers

IFRS 15, *Revenue from Contracts with Customers*, issued by the IASB in May 2014, is applicable to all revenue contracts and provides a model for the recognition and measurement of gains or losses from sales of some nonfinancial assets. The core principle is that revenue is recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard will also result in enhanced disclosures about revenue, provide guidance for transactions that were not previously addressed comprehensively [for example, service revenue and contract modifications] and improve guidance for multiple-element arrangements. IFRS 15 is effective for annual periods beginning on or after January 1, 2017 and is to be applied retrospectively, with earlier adoption permitted. Entities will transition following either a full or modified retrospective approach. The Company is currently evaluating the impact of the above standard on its financial statements.

3. New standards and interpretations not yet adopted (continued):

Amendments to IAS 1, Presentation of Financial Statements

On December 18, 2014 the IASB issued amendments to IAS 1 as part of its major initiative to improve presentation and disclosure in financial reports (the "Disclosure Initiative"). The amendments are effective for annual periods beginning on or after January 1, 2016. Early adoption is permitted. These amendments will not require any significant change to current practice, but should facilitate improved financial statements disclosures. The Company intends to adopt these amendments in its financial statements for the annual period beginning on January 1, 2016. The Company is currently evaluating the impact of the above amendments on its financial statements.

The Company has considered indicators of impairment as at March 31, 2015 and December 31, 2014. To March 31, 2014, the Company has recorded an aggregate impairment loss of \$16,136,325 primarily resulting from a previous write-down of AGGRASTAT[®] intangible assets and from patent applications no longer being pursued or patents being abandoned. The Company did not record a write-down of intangible assets during the three months ended March 31, 2015 or February 28, 2014 relating to patent applications no longer being pursued and patents being abandoned. The average remaining amortization period of the Company's intangible assets is approximately 1.6 years.

For the three months ended March 31, 2015, amortization of intangible assets relating to AGGRASTAT® totaling \$159,076 (three months ended February 28, 2014 - \$138,256 is recognized in cost of goods sold and amortization of other intangible assets totaling \$919 (three months ended February 28, 2014 - \$2,825) is recognized in research and development expenses.

As described in note 8, certain intangible assets were pledged as security against long-term debt.

7. Investment in Apicore:

On July 3, 2014, the Company and its newly formed and wholly owned subsidiary, Medicure U.S.A. Inc. ("Medicure USA"), entered into an arrangement whereby it acquired a minority interest in a pharmaceutical manufacturing business known as Apicore, along with an option to acquire all of the remaining issued shares prior to July 3, 2017. Specifically, the Company and Medicure USA have acquired a 6.09% equity interest (5.33% on a fully-diluted basis) in two newly formed holding companies of which Apicore LLC. and Apicore US LLC. will be wholly-owned operating subsidiaries. The Company's equity interest and certain other rights, including the option rights, were obtained by the Company for services provided in its lead role in structuring a US\$22.5 million majority interest in Apicore, with the exception of costs incurred by the Company in relation to the transaction which totaled \$167,672.

The Company has a contractual obligation to help fund the resolution of certain specified damages if they are encountered before July 3, 2016, not to exceed US\$5 million. The specified mechanism for the Company to fulfill this obligation is through the purchase of a portion of the equity of Apicore at a specified, discounted price per share. The occurrence of any of the specified damages that would precipitate such a purchase is not anticipated by the Company, therefore no amount has been recorded in the consolidated financial statements.

As at July 3, 2014, the Investment in Apicore was initially valued at \$1,276,849 and the option rights received were recorded at a value of \$275,922.

As at March 31, 2015, the Investment in Apicore was recorded at \$1,455,897. The increase in value is as a result of the translation of the foreign currency subsidiary for the portion of the investment in Apicore held by Medicure U.S.A. Inc. The difference of \$94,073 is recorded as a translation adjustment through other comprehensive income in the Statement of Income and Comprehensive Income for the three months ended March 31, 2015.

The long-term derivative is the value associated to the option rights, which is revalued at every reporting period. As at March 31, 2015, the option rights have a value of \$126,787. The change in the value of the option rights is recorded in the Statement of Income and Comprehensive Income for the three months ended March 31, 2015 as a revaluation of the Apicore purchase option.

As there was no cash consideration for the Investment in Apicore, the Company recorded the initial value of holdings acquired, including the option rights, net of transaction costs which totaled \$167,672 as investment structuring services in the Statement of Income (Loss) and Comprehensive Income (Loss) for the seven months ended December 31, 2014.

8. Long-term debt (continued):

The Company borrowed \$5,000,000 from the Government of Manitoba, under the Manitoba Industrial Opportunities Program ("MIOP"), to assist in the settlement of its existing long-term debt as described in note 10. The loan bears interest annually at 5.25% and originally matured on July 1, 2016. The loan was payable interest-only for the first 24 months, with blended principal and interest payments made monthly thereafter until maturity. Effective August 1, 2013, the Company renegotiated its long-term debt and received an additional two-year deferral of principal repayments. Under the renegotiated terms, the loan continues to be interest-only with principal repayments now beginning on August 1, 2015 and the loan matures on July 1, 2018. The loan is secured by the Company's assets and guaranteed by the Chief Executive Officer of the Company and entities controlled by the Chief Executive Officer. The Company issued 1,333,333 common shares (20.000.000 pre-consolidated common shares) of the Company with a fair value of \$371.834, net of share issue costs of \$28,166, in consideration for the guarantee to the Company's Chief Executive Officer and entities controlled by the Chief Executive Officer. In connection with the guarantee, the Company entered into an indemnification agreement with the Chief Executive Officer under which the Company shall pay the Guarantor on demand all amounts paid by the Guarantor pursuant to the guarantee. In addition, under the indemnity agreement, the Company agreed to provide certain compensation upon a change in control of the Company. The Company relied on the financial hardship exemption from the minority approval requirement of Multilateral Instrument ("MI") 61-101. Specifically, pursuant to MI 61-101, minority approval is not required for a related party transaction in the event of financial hardship in specified circumstances.

The Company is required to maintain certain non-financial covenants under the terms of the MIOP loan. As at March 31, 2015, management believes it is in compliance with the terms of the loan.

The effective interest rate on the MIOP loan for the three months ended March 31, 2015 was seven percent (three months ended February 28, 2014 - eight percent).

9. Royalty Obligation:

On July 18, 2011, the Company settled its existing long-term debt with Birmingham Associates Ltd. ("Birmingham"), an affiliate of Elliott Associates L.P., in exchange for i) \$4,750,000 in cash; ii) 2,176,003 common shares (32,640,043 preconsolidation common shares (note 12)) of the Company; and iii) a royalty on future AGGRASTAT[®] sales until May 1, 2023. The royalty is based on four percent of the first \$2,000,000 of quarterly AGGRASTAT[®] sales, six percent of quarterly sales between \$2,000,000 and \$4,000,000 and eight percent of quarterly sales exceeding \$4,000,000 payable within 60 days of the end of the preceding quarter. The previous lender has a one-time option to switch the royalty payment from AGGRASTAT[®] to a royalty on MC-1 sales. Management has determined there is no value to the option to switch the royalty as the product is not commercially available for sale and development of the product is on hold.

In accordance with the terms of the agreement, if the Company were to dispose of its AGGRASTAT[®] rights, the acquirer would be required to assume the obligations under the royalty agreement.

The initial value assigned to the royalty obligation, based on an expected value approach, was estimated to be \$901,915. The royalty obligation is recorded at amortized cost using the effective interest method, with the associated cash flows being revised each period resulting in a carrying value at March 31, 2015 of \$2,390,001 (December 31, 2014 - \$2,189,054). The change in the royalty obligation for the three months ended March 31, 2015 of \$117,071 (three months ended February 28, 2014 - \$340,940) is recorded within finance expense on the condensed consolidated interim statements of net income and comprehensive income. Royalties for the three months ended March 31, 2015 total \$150,651 in regards to the royalty obligation (three months ended February 28, 2014 - \$64,810) with payments made during the three months ended March 31, 2015 of \$98,880 (three months ended February 28, 2014 - \$28,307).

10. Capital stock:

(a) Authorized

The Company has authorized share capital of an unlimited number of common voting shares, an unlimited number of class A common shares and an unlimited number of preferred shares. The preferred shares may be issued in one or more series, and the directors may fix prior to each series issued, the designation, rights, privileges, restrictions and conditions attached to each series of preferred shares.

On January 27, 2015, the Company announced that, subject to all necessary regulatory approvals, it has entered into shares for debt agreements with certain members of the Board of Directors and a consultant, pursuant to which the Company will issue 108,206 of its common shares with a fair value of \$1.44 per common share to satisfy \$155,817 of outstanding amounts owing to the these individuals. The shares were issued on March 20, 2015 and resulted in a loss of \$60,595 due to increases in share price between the date of the debt settlements and the issuance of the shares. This loss is recorded on the condensed consolidated interim statement of income and comprehensive income as a loss on settlement of debt.

(c) Stock option plan

The Company has a stock option plan which is administered by the Board of Directors of the Company with stock options granted to directors, management, employees and consultants as a form of compensation. The number of common shares reserved for issuance of stock options is limited to a maximum of 1,829,476 common shares of the Company at any time. The stock options generally are subject to vesting over a period up to three years and have a maximum term of ten years.

On September 17, 2014, 10,066 stock options, with a value of \$9,091 were exercised at prices of \$0.60 per share (3,333 stock options), \$1.50 per share (1,733 stock options) and \$0.30 per share (5,000 stock options) for proceeds to the Company of \$6,099.

On July 7, 2014, the Company granted an aggregate of 332,300 options to certain directors, officers, employees, management company employees and consultants of the Company. Of these options, 92,300 are set to expire on the tenth anniversary of the date of grant, and 240,000 are set to expire on the fifth anniversary of the date of grant. All 332,300 options were issued at an exercise price of \$1.90 per share and vested immediately.

On March 27, 2015, the Company granted an aggregate of 236,070 options to certain directors, officers, employees, management company employees and consultants of the Company pursuant to the Company's Stock Option Plan. Of these options, 181,070 are set to expire on the tenth anniversary of the date of grant, 5,000 are set to expire on the third anniversary of the date of grant and 50,000 are set to expire on the first anniversary of the date of grant. All of the options were issued at an exercise price of \$1.90 per share.

IFRS require warrants with an exercise price denominated in a currency other the entity's functional currency to be treated as a liability measured at fair value. The warrants, all with U.S. dollar exercise prices, are recorded at fair value within accounts payable and accrued liabilities as at March 31, 2015 and total \$38,936 (December 31, 2014 - \$36,259). Changes in fair value of the warrants for the three months ended March 31, 2015 of \$2,677 (three months ended February 28, 2014 - \$18,497) are recorded within finance expense.

The warrants were issued with a debt financing agreement in September 2007 and may be exercised, upon certain conditions being met, on a cashless basis based on a formula described in the warrant agreements.

(e) Per share amounts

The weighted average number of common voting shares outstanding for the three months ended March 31, 2015 and the three months ended February 28, 2014 was 12,411,902 and 12,196,508, respectively. For the three months ended March 31, 2015 and February 28, 2014, the dilution created by options and warrants has been reflected in the per share amounts.

11. Commitments and contingencies:

(a) Commitments

As at March 31, 2015 and in the normal course of business, the Company has obligations to make future payments representing contracts and other commitments that are known and committed.

The aggregate manufacturing and supply agreement and business and administrations services agreement which is payable during the remainder of fiscal 2015 is \$1,644,250 and there are no contractual commitments beyond December 31, 2015.

The Company has entered into manufacturing and supply agreements, as amended, to purchase a minimum quantity of AGGRASTAT[®] from a third party with remaining minimum purchases totaling \$1,483,000 or US\$1,171,000 (based on current pricing) over the term of the agreement, which expires in fiscal 2015. Effective January 1, 2014, the agreement was amended and the amounts previously due during fiscal 2014 were deferred throughout calendar 2014 and now bear interest at 3.25% per annum, with monthly payments being made against this balance owing of US\$45,000. These payments will be applied to future inventory purchases expected to be made during fiscal 2015 and \$544,743 is currently recorded within prepaid expenses in regards to this agreement. For the three months ended March 31, 2015, interest of \$1,883 (three months ended February 28, 2014 - \$6,858) is recorded within finance expense relating to this agreement.

On November 1, 2014, the Company amended its business and administration services agreement with Genesys Venture Inc. ("GVI"), a company controlled by the Chief Executive Officer (note 12), under which the Company is now committed to pay \$17,917 per month, or \$215,000 per year effective November 1, 2014 for a fourteen month term. Either party may terminate this agreement at any time upon 90 days written notice.

11. Commitments and contingencies (continued):

(a) Commitments (continued)

Contracts with contract research organizations are payable over the terms of the associated clinical trials and timing of payments is largely dependent on various milestones being met, such as the number of patients recruited, number of monitoring visits conducted, the completion of certain data management activities, trial completion, and other trial related activities.

(b) Guarantees

The Company periodically enters into research agreements with third parties that include indemnification provisions customary in the industry. These guarantees generally require the Company to compensate the other party for certain damages and costs incurred as a result of claims arising from research and development activities undertaken on behalf of the Company. In some cases, the maximum potential amount of future payments that could be required under these indemnification provisions could be unlimited. These indemnification provisions generally survive termination of the underlying agreement. The nature of the indemnification obligations prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay. Historically, the Company has not made any indemnification payments under such agreements and no amount has been accrued in the accompanying financial statements with respect to these indemnification obligations.

(c) Royalties

As a part of the Birmingham debt settlement described in note 9, beginning on July 18, 2011, the Company is obligated to pay a royalty to the previous lender based on future commercial AGGRASTAT[®] sales until 2023. The royalty is based on four percent of the first \$2,000,000 of quarterly AGGRASTAT[®] sales, six percent of quarterly sales between \$2,000,000 and \$4,000,000 and eight percent of quarterly sales exceeding \$4,000,000 payable within 60 days of the end of the preceding quarter. The previous lender has a one-time option to switch the royalty payment from AGGRASTAT[®] to a royalty on MC-1 sales. Management has determined there is no value to the option to switch the royalty as the product is not commercially available for sale and development of the product is on hold. Royalties for the three months ended March 31, 2015 total \$150,651 in regards to the royalty obligation (three months ended February 28, 2014 - \$64,810) with payments made during the three months ended March 31, 2015 of \$98,880 (three months ended February 28, 2014 - \$28,307).

The Company is obligated to pay royalties to third parties based on any future commercial sales of MC-1, aggregating up to 3.9 percent on net sales. To date, no royalties are due and/or payable.

(d) Contingencies

In the normal course of business, the Company may from time to time be subject to various claims or possible claims. Although management currently believes there are no claims or possible claims that if resolved would either individually or collectively result in a material adverse impact on the Company's financial position, results of operations, or cash flows, these matters are inherently uncertain and management's view of these matters may change in the future.

12. Related party transactions:

(a) Key management personnel compensation
